The birthday bash isn't just a mere event on the calendar; it's a powerful catalyst that ignites the spirit of camaraderie and strengthens the bonds within the Infocarers community. It serves as a vibrant tapestry, weaving together the threads of our shared experiences, memories, and aspirations.

As we gather to celebrate these special anniversaries, we are reminded of the profound value of connection. Each birthday becomes an occasion to rekindle old friendships, forge new ones, and rejoice in the collective journey we've undertaken together.

WOMEN'S DAY CELEBRATION

On March 8th, Infocarer Divas, comprising talented and accomplished women from across a spectrum of verticals within the organization, gathered together in a spirited celebration of International Women's Day. With a vibrant display of solidarity and empowerment, these remarkable women commemorated the occasion by recognizing the invaluable contributions, unwavering strength, and remarkable achievements of women in various domains.

Divas in Infocareer have showcased their mettle and achievements through their exemplary performance across all facets of the organization. From leadership roles to technical expertise, project management, innovation, and beyond, women have consistently demonstrated their capabilities and contributed significantly to the company's success.

We thank each and every Infocarer Divas for their association and contribution into joining us for lots of successful milestones that we have been achieving continuously, year after year.

FORECAST MEET FOR 2024-25

We're excited to share the highlights and key takeaways from the recent Planning Meet held on 14th and 15th March 2024 among the management and vertical heads.

Participants for the meeting included Mr. Chandrasekaran, Mrs. Usha Sekaran, Mr. K.N. Ananth, Mr. G. Lakshmi Sekar, Mr. Yogen Chawla, Mr. Mohan Santhanam, Mr. Krishna Routhu, Mr. Karthik Chakravarthy, Mr. Winston Britto, Mr. A.V. Praveen, Ms. Rukmani, Ms. Shruthi, Ms. Niveditha, Mr. Arul Kumar, and Mr. Sushant Chatterjee.

The success stories discussed during the meeting encompassed a diverse range of achievements, including the pivotal role played by Infocareer Pvt Ltd in the NASSIT Transformation, the collaborative efforts between ICLeaF and Amazon resulting in upskilling Amazon's workforce, the successful implementation of Salesforce solutions by Salesforce division for various clients, the detailed whitepaper highlighting ICLeaF's training program for Amazon employees, and the significant contribution of the Mentoring Division towards fostering innovation within the organization.

The discussions among various divisions revolved around setting ambitious business targets for the upcoming Financial Year 2024-2025. Key focus areas included identifying new customers, expanding customer bases, and enhancing specialized services to foster sustainable growth. Strategies were devised to align with industry specifications, optimize project lifecycles, and prioritize effective communication to bolster client connections within the market. These initiatives underscored a proactive approach towards elevating the company's performance and competitiveness, with a clear emphasis on setting robust business targets for the fiscal year ahead.

The discussions also emphasized targeting higher growth by refining product lifecycle management, enhancing expertise, identifying success stories, attracting new clients, and nurturing skilled human resources to sustain momentum and ensure a dynamic and prosperous trajectory.

Overall, the team meeting concluded on a positive note, with a collective determination to acquire more clients and elevate the organization's financial standing in the upcoming financial year. There was a shared sense of optimism and commitment among participants, reflecting a unified drive towards achieving ambitious goals and propelling the company towards greater success and growth in the future.

INFORMATION SECURITY IMPLEMENTATION AT NASSIT, SIERRA LEONE

Contributed by Atul Udipi, Information Security Specialist, NASSIT Team, Consulting Division

Digitalization has enhanced our experiences of communication, travel, healthcare and all nuances of life which were otherwise cumbersome. Power of Technology is clearly evident if we compare the way our parents/grand parents lived & our living. This has also changed the attitude of an entire generation making it be able to focus on better things rather than basic survival.

This digitalization also comes with its own risks & responsibilities and necessitates the formulation of basic rules & regulations as well as hygiene parameters to ensure safe & valid use of technologies & avoid misuse. In a nutshell, power of technology is a double-edged sword which needs a combination of right mindset & culture to make it useful for every individual or society in general.

As we all know, Africa continent is currently going through major digital transformation phase and I had the opportunity to work with NASSIT, one of the Trust based in SL managing Pension & Social security of citizens of Sierra Leone. Infocareer (ITCon) as a Project Management team for NASSIT has been working on digital transformation initiatives to automate various functions of the Trust. Since the Trust deals with pension & social security of citizens of Sierra Leone, information Security plays a major role in securing & safeguarding every byte of data that is collected, stored, processed & transmitted. In addition to common citizens data, there is also data related to defense personnel, law enforcement, private & government staff. Any pilferage of the data may result in damaging the reputation of the trust, erosion of confidence & developing a risk of national security.

My journey at NASSIT for Information Security implementation was eventful with enthusiastic participation from all members at all levels. Efforts of Infocareer team was very well received and appreciated by the Senior Management at NASSIT.

Infocareer helped NASSIT setup the relevant controls necessary to safeguard their information assets.

INFOBLAST WITH CEO

Mr. Chandrasekaran, CEO and MD, interacted with Infocarers over Infoblast.

It was an opportunity to mingle with team members from various verticals and inspire them for hard work and discipline. During the Infoblast, Mr. Chandrasekaran connected with Infocarers and shared about various topics such as the company's performance, its future direction, strategic initiatives, and challenges, solutions and opportunities on the horizon.

It was an opportunity for him to connect with team members from different verticals or departments within the organization, fostering a sense of unity and shared purpose among them. One of the key objectives of the Infoblast have been to inspire and motivate the employees, encouraging them to work hard and maintain discipline in their roles. Mr. Chandrasekaran shared anecdotes, success stories, and insights to illustrate the importance of dedication, teamwork, and perseverance in achieving the company's goals. Overall, Infoblast served as a platform for open communication, alignment of objectives, and energizing the workforce to contribute their best towards Infocareer's success.

INFOCARER STAR AWARD

CITATION

We're thrilled to honor Arun A with this award for his outstanding work and dedication at Intellect Design. His hard work and timeliness haven't gone unnoticed, earning him the Spot Winner award directly from our client. Arun A has been crucial in solving complex issues, praised by IDA in their messages for his vital role. It's a proud moment for us to see our client recognizing his efforts and contributions.

Congratulations, Gokulnath M for setting such a high standard and making a significant impact. Your dedication inspires us all! Gokulnath M demonstrates remarkable adaptability across diverse project domains, including e-learning, finance, and e-commerce sectors. They exhibit proficiency in front-end development and possess a commendable ability to collaborate seamlessly within any team environment.
